

# Sales Performance & Business Insights Report

## Project Overview

The dataset was imported into SQL and analyzed using SQL queries. An interactive Power BI dashboard was created to visualize sales, profit, customer, product, order and market performance.

### Overall Business Performance:

The business generated a total sales revenue of \$12.64M from 51.27K orders, resulting in a total profit of \$1.47M.

### Market Performance Analysis:

APAC emerged as the highest-performing market, followed by EU and US, indicating strong customer demand and sales performance in these regions.

### Category Profitability Analysis:

Technology is the most profitable category with a profit of \$0.66M, making it the key contributor to overall business profitability.

### Low Performing Category Analysis:

Office Supplies generated \$0.52M profit, while Furniture contributed the lowest profit at \$0.29M, suggesting opportunities to improve profitability in the Furniture category.

### Profit Margin Analysis:

The company achieved an overall profit margin of 11.61%, meaning it earns approximately \$11.61 profit for every \$100 of sales.

### Shipping Mode Analysis:

Standard Class is the most frequently used shipping mode, indicating that customers prefer economical and reliable delivery options.

### **Customer Performance Analysis:**

Tom Ashbrook is the highest-value customer with sales of approximately \$40K, followed by Tamara Chand (\$37K) and Greg Tran (\$36K).

### **Product Performance Analysis:**

Canon Imageclass 2200 Advanced Copier is the most profitable product, generating nearly \$25K profit, making it a key revenue-driving product.

### **Top Product Contribution Analysis:**

Cisco Smart Phone (Full Size) and Motorola Smart Phone (Full Size) are also among the top-performing products, each contributing around \$17K profit.

### **Strategic Business Recommendation:**

The analysis shows that a small group of customers and products contributes a significant share of overall revenue and profit, highlighting the importance of customer retention and product-focused sales strategies.
